

### **CALIFORNIA® HIGH PROFILE TLSO**

The California® High Profile TLSO is available in two designs (460/464) and requires customization made by a qualified clinician (orthotist) to effectively fit each patient. The High Profile TLSO provides stability and triplanar control where indicated to reduce spinal muscle atrophy and deconditioning.

### **NEWPORT® ULTRA**

The new Newport® ULTRA hip orthosis from Orthomerica is designed to provide protection and support for patients at risk for or with hip instability.

### **OWLS® LITE**
